pour les "mini" endroits ...

32 liters completely silent Mirror mini-bar

The SILENT350M mini bar is simultaneously silent, ecological and spacious with its 32 liters capacity.

Technical specifications ...

EAN code: 5420046412073

Installation mode: Free standing and build-in
Energy class: A+
New energy class: F
Cold type: Static
Cold generator module: Thermoelectric semi-conductor
Lighting: LED
Color: black mirror
Door type: Foam
Net total volume (liter): 32l
Refrigerator defrosting: Automatic
Shelves number: 1
Power: 63W
key lock:
Reversible door: Yes
Airborne acoustical noise emission class: A
Energy consumption (year): 90kWh/an
Climatic class: N
Gross dimensions (HxLxD) in cm: 53x44x51
product dimensions (HxLxD) in cm: 48.5x38.5x45.5
Brutto weight (kg): 13.5kg
Net weight (kg): 12.5kg
Quantity per container: 590
Brand: Brandy Best
Standards: CE - ROHS - REACH

A fresh casket for your drinks...

This mini bar allows you to keep fresh your bottles of all sizes. Totally silent thanks to its Peltier effect with a cool semi conductor module, the mini bar is an innovative technology, providing a low energy consumption and a silent working. Its glossy finition gives it a resolutely modern look. You will enjoy it in your bedroom, your study or in your leaving room. For 36 cans + 8 small cans.

Silence and space...

Airborne acoustical noise emission class "A", totally silent Peltier effect We obtain this result by optimising the electronic regulation, and thanks to the cold exchanger conceived in aluminium, and being full part of the minibar's cavity. Based on the Peltier effect, innovative technology also called thermoelectric, a physical phenomenon of heat movement with and electric current. The effect takes place in the different nature materials of high conductivity linked together by junctions. One of the junction gets cold when the other one gets hot. The cold produced is collected inside the minibar, and the heat is evacuated thanks to a radiator located at the back of the minibar. Today, this technology is only used for minibars.
