Student rooms, offices, furnished holiday spaces... Your space is limited. Settle your solid and elegant kitchen in less than 1m<sup>2</sup>. You will say goodbye to cold meals and to the sandwich you used to eat above your desk ! You will finally be able to cook. The hood get rid of food odours and the fridge is hidden. A paper ? A yoghurt cup ? The trash is there ; everything is clear ! Moreover, the sink is a useful watering place in an office. You don't have enough time to wash your dish ? Fair enough : you only have to ring down the roller shutter... Discretion assured ! Even if you live in a rented place with other people, having some independance is always nice ! Having a personal fridge, store your food, being able to cook or heat your mother's meal... All of that in a kitchen as big as a filling cabinet. It's amazing!

### Our compact kitchen: a great asset for you.

Cooking, suction, cold and freezing... Everything has been thought to gather the essential functions. Cooking... A special microwave recess. A 60cm hood with a recycling system. A hob with two fireplace, electric, ... or .... Cold... A 55cm table top fridge with a small 4\* integrated freezer. Convenience... A trash. An outlet.
