To optimise your kitchen, the MPF60-CF cabinet allows you to gather all your cooking domestic goods in the same place. Keep an eye on everything. Watch your boiling water and monitor the cooking process of your meat in your oven. With its discretion and simplicity, it can nest easily between your other kitchen furnitures.

A built-in modular solution...

The MPF60-CF cabinet allows you to nest a standard hub and a standard oven. A clever attaching system makes it easier to build and dismantle the furniture.
